

Renewable Energy Member Agreement

Eastern Illini Electric Cooperative, Inc. (EIEC) is a member-owned cooperative. Our responsibility is to serve the needs of our members. This includes developing programs as provided for in our bylaws and regulations for members that are interested in offsetting some of their electric use with a renewable energy system.

The main documents of our renewable energy program include the EIEC bylaws and Regulations 26, 26A and 27, and all related attachments, amendments and exhibits. All of those documents are available on our website and can also be emailed.

Furthermore, to assist both the member installing the renewable energy system, and protect the integrity of the electric system for all of our members, EIEC requires insurance coverage of at least \$1 million, with EIEC (Eastern Illini Electric Cooperative, Inc., PO Box 96, Paxton, IL 60957) listed as an "additional insured" on business policies or as a "certificate holder" for residential/farm policies. This insurance should be part of the applicable existing homeowners or business insurance policy.

As a member of EIEC authorized to sign for the service location at:

Interconnection Request. If, I/we are not the operson or entity financing the purchase, then are in full operational control of the renewable burchase by me/us is not in the electric business.	able energy system equipment described on my/our owner and the renewable energy system is owned by a that person or entity is to be passive, meaning that I/we e energy system, and the person or entity financing the ess. This also means that the financing person or entity amount of electric energy generated by such renewable felectric energy.
nterconnection, I/we cannot enter into any su hird party because of the contractual relation	s, regulations, and policies regarding membership and ach agreement to purchase electrical energy from a ship with EIEC. I/we also acknowledge that if my/our we the authority to sign this agreement for the other
